

REMARKS

The present response includes amendments to claim 1 in accordance with those changes specified in the official action. The remaining independent claims are amended to include limitations directed to dual RSSI's, one upstream of a filter (for wideband signals) and one downstream of a filter (for narrowband signals). These amendments are intended to place the claims into an allowable condition. With the amendments, it is believed that all grounds of rejection are rendered moot and the claims are allowable.

Regarding the new Declaration and Assignment, after making the amendments, the applicants evaluated the claims as believed allowable and concluded that an additional inventor needed to be added. Accordingly, a new declaration is being provided along with other required papers to amend the inventorship to add Mr. Arya Behzad.

The Commissioner is hereby authorized to charge any additional fees connected with this communication or credit any overpayment to Garlick Harrison & Markison Deposit Account No. 50-2126 (BP1985).

Respectfully submitted,

Date: May 22, 2006
